

JOSHUA WORRALL

ASPIRING MOTORSPORT ENGINEER

Cemetery Road, Winterton, DN15 9UG · 07832 247545 · josheworrall@gmail.com · worrallengineering.com

PERSONAL STATEMENT

I am 16 and studying for my City & Guilds Level 2 Certificate in Light Vehicle Maintenance & Repair at North Lindsey College, with the ambition of becoming a motorsport engineer. I am looking for paid part-time or weekend work I can fit around my course, and an apprenticeship when I am ready for one. I have already worked trackside with CTS Motorsport at Cadwell Park and at Silverstone, and it confirmed this is the industry I want to build a career in. I am reliable, I turn up when I say I will, and I am methodical about following procedures and checking my own work.

WORK EXPERIENCE

CTS Motorsport, Silverstone race event

26 & 27 September 2026

Power Maxed Mini Challenge UK, race prepared John Cooper Works Mini

- Cleaning and preparing the car, wheels and tyres
- Assisting with wheel alignment
- Helping on the pit board during races
- Packing the kit away at the end of the event

CTS Motorsport, Cadwell Park race event

7 & 9 August 2026

- Preparing race cars between sessions
- Removing and refitting wheels, torquing bolts to the correct specification
- Fuel management, engine cover removal and fluid level checks
- Working to time pressure as part of a trackside team

CTS Motorsport, Race Workshop, Kirton in Lindsey

28 July 2026

- Cleaning and preparing Caterham race cars
- Wheel washing and general workshop maintenance

EDUCATION

City & Guilds Level 2 Certificate, Light Vehicle Maintenance & Repair Principles

2026 to present

North Lindsey College, Scunthorpe

GCSEs, Winterton Community Academy

Completed 2026

English Literature 6 · English Language 4 · Maths 4 · Science 4 / 3

SKILLS AND QUALITIES

- Mechanical aptitude and genuine interest in how vehicles work
- Quick to learn, and happy to be corrected
- Reliable timekeeping and attendance
- Works well in a team; comfortable with customers and colleagues
- Methodical: follows procedures, checks work, keeps tools and parts in order

AVAILABILITY

Flexible around college. Available evenings, weekends and school holidays.

PORTFOLIO

Photographs of my workshop and trackside experience, and further detail on my training, are at worrallengineering.com
